**"WHY DO THE NATIONS RAGE?"** (Psalm 2)

The disembodied nephilim spirits, in league with their rebellious angelic "parents" and plotting with evil men, have been the inspiration and cause for war and strife through-out all of history. These same demonic spirits are also behind the inspirations of many of the technologies that we take for granted today - and they are the true source of the 'intelligence' - **the mind behind AI:**

**They are demons. They are Legion.  
They are the disembodied spirits of the Nephilim.  
And they are rising in these last days.**

David Beverley Sr -Christian, husband, father, technologist, musician, author, speaker - has used an eclectic skill-set and unorthodox thinking and methodology to write and speak on the prophetic - for almost two decades. His live presentations and published columns include sound, Biblical doctrine, a deep understanding of all things 'tech' and some extremely esoteric material that will challenge even the most free-thinking individual's 'normalcy bias'. He tries to mix in a little humor, as well --- on Youtube.com/@jfcg
